

Virgilio received his PhD in Engineering from the University of Edinburgh, Scotland, United Kingdom. He obtained an MSc in Computer Science at the National Institute for Astrophysics, Optics and Electronics, Tonantzintla, Mexico. And he received a BA in Electronics and Communications from the Exact Sciences and Engineering Centre, University of Guadalajara, Mexico.

His research interests include: bio-inspired optimization algorithms and their application to the design and control of renewable energy systems. GPU parallel computing, distributed artificial intelligence and smart antennas. Currently, he is a full-time researcher at the University of Guadalajara, CUTonalá campus.

Virgilio hizo el Doctorado en Ingeniería en la Universidad de Edimburgo, Escocia, Reino Unido. Obtuvo el grado de Maestría en Ciencias Computacionales en el Instituto Nacional de Astrofísica, Óptica y Electrónica (INAOE), Tonantzintla, México. Y recibió el título de Ingeniero en Comunicaciones y Electrónica por parte de la Universidad de Guadalajara, México.

Sus líneas de investigación incluyen: Algoritmos de optimización bio-inspirados y su aplicación al diseño y control de sistemas de energía renovable. Cómputo paralelo en GPUs, inteligencia artificial distribuida y antenas inteligentes. Actualmente, es investigador de tiempo completo en la Universidad de Guadalajara, campus CUTonalá.
